SENATE PROCEEDINGS OF DISTRICT INTERgsr.-In the Senate, yesterday, Mr. Thompson introduced the following resolution, which

was adopted : Resolved, That the Committee for the Dis trict of Columbia inquire into the expediency of receding to the State of Maryland George-town and all that part of the District of Columbia which lies west of Rock Creek, upon | ly proprietor of the Napoleon hotel, Hoboken, such terms and conditions as will secure to Georgetown an amount of money equal to that which was appropriated for the benefit | rendered a just tribute in our paper of the 6th of Alexandria while it was a part of the ter- of February, 1856, for the splendid and magritory of the District of Columbia; and that nificent supper which the Messrs. Willard presaid committee have leave to report by bill or otherwise.

Mr. Brown asked the Senate to indulge him by proceeding to the consideration of the bills on the calendar relating to the concerns of the | der, and one which will compare with any of District of Columbia, contending that if not the kind in Europe or America. delayed or perhaps lost for want of time The motion having been agreed to, the fol-

lowing bills were considered and passed : A bill to incorporate the "Apothecaries' Association of the District of Columbia." A bill to relieve the Corporation of George-

town from the payment of bills for making roads west of Rock Creek. A bill to provide for the public instruction of youth in primary schools throughout the county of Washington, in the District of Columbia, without the limits of the cities of

Washington and Georgetown. The bill to provide for improving the harbor of Georgetown, in the District of Columbia, was next taken up; when Mr. Hunter objected to its consideration, on

the ground that it was of the same class of bills as those relating to river and harbor improvements, and should not be considered when the Senate was so thinly attended.

Mr Brown was understood to say that the bill did not come within that class, as he would be prepared to show at the proper time; but he would not object to its postponement to a future day.

THE PANORAMA AT IRON HALL Was pretty well attended last evening, but had not so large an audience as we have frequently seen attend similar exhibitions of far less merit. The artist deserves crowded houses. Japan was unrolled last night, and from the quiet attention of the audience, with due applause, we judge it gave general satisfaction. These series of pictures, though not so elaborate in the details of the manners, customs, &c., of the Japanese, as those of China and of the Chinese, still the scenic effect is unusually good, and they convey a faithful exposition of the negotiations of the treaty of amity conducted and successfully concluded by Com. Perry, and are remarkably pleasing and interesting. China is exhibited to-night, and Japan to-morrow afternoon and evening, and as both these panoramas are fully endorsed for their truthfulness by Com. Perry, Bayard Taylor, and other distinguished travellers, as well as highly lauded for their artistic merit by artists and connoisseurs of New York and this city. We hope and predict for the exhibition a golden harvest.

INDIAN DELEGATIONS -JEO. W. Grey Eyes, J. S. Bearskin, and Joel Walker, of the Wyandott tribe of Indians, accompanied by Gen. J. W. Whitfield, of Kansas, arrived in this Government, by entering into premature discity yesterday on business with the Government, and have taken lodgings at Browns Hotel. Hole-in-the-day, chief of the Chippewas in Minnesota, arrived here last night In addition to those named there are other delegations of Indian chiefs in this city to transact business for their tribes with the Department. Generally these delegations are composed of educated men who stand high in the estimation of their people.

A NEW CAPTAIN .- At a meeting of the Washington Highlanders held last evening at their armory, Mr. John Watt, the efficient superintendent of the Executive grounds, was unanimously elected Captain of the company in room of Captain John Bain, resigned. Captain Watt has long been one of the most active and efficient members of the corps. They part with Captain Bain with regret, as by his urbanity and attention to his duties he won the regard of all the Highlanders.

WE LEARN that Rev. Mr. Haskell, the pastor of the Western Presbyterian Church, has returned from his tour to raise funds for the completion of his church edifice, and that he will resume public worship with his twice afflicted congregation on next Sabbath in the lecture-room of their partially-demolished church. The fractured tower has been so removed as to preclude all danger to either the Sabbath school or the worshipping assembly.

The young man is an industrious, good citizen, and highly esteemed by all who know him.

THE AFFAIR between Mrs. Fritz and Mr. and Mrs. Brooks, mentioned in the Star yesterday, grew out of an altercation among some children. JACON ADVERTISEMENT. FOR SEVERAL WEEKS past it has been rumored through the city that a restaurant of the first-class, conducted on the French style, is about to be opened in the First Ward. We regret to not be able to name positively the person with whom this capital idea originated nevertheless, if we do not err in our judgment, we might almost assure the reader that this enterprise is about to be carried out by the eminent artist who for the past six months has conducted the culinary department of the Messrs. Willards' Hotel, and who was formerwhich was the resort of the fashionable society of New York. He is the artist to whom we sented to their grests on that occasion. ADDITIONAL FOREIGN INTELLIGENCE

BY THE AMERICA AT HALIFAX. The steamship Proponts, with the new submarine telegraph cable, which is to cross the Gulf of St. Lawrence and connect Newfoundland with Cape Breton, sailed from London on the 2d of June The cable will be laid down during the present month, and will form the first link in the London and New York Submarine Telegraph line, which it is confidently anticipated here will be in successful operation between London and New York within twelve or eighteen months.

The important insurance suit-The New York, Newfoundland, and London Telegraph Company, vs. Lloyd's Insurance Company, London, has been settled, upon very advantageous terms to the Telegraph Company.

AMERICAN DIFFICULTY. Lord Palmerston replied to D'Israeli's inquiry as to American affairs, in the following terms:

Lord Palmerston said : I am unable to give any definite answer to the question with which the honorable Baronet concluded his statement, namely: "What particular steps had been taken during the last few weeks to obtain an answer from the American Government with regard to the subject of arbitration on the Central American question?"

I can only say this, that the American Government have made fully aware of that offer having been made on the part of her Majesty's Government, and we have not thought it necessary, as yet to press, in any special manner, for a reply. With regard to the general tenor of the Honorable Baronet's observations, I quite agree with him, that in the present state of things between the two governments, it would be inexpedient if the opinion of the Government was to be expressed. I have no hesitation in saying that I feel the interests of the country and the prospects of the permanent maintenance of amicable relations between this country and the United States, would be best promoted by the continuation of that forbearance, that judicious forbearance, which the House has hitherto shown Upon other occasions of somewhat similar character, when questions of importance were pending in reference to the last war, or to the ons by which it was concluded, this House has acted in a manner most honorable to its judgment, by abstaining from throwing any possible difficulties in the way of the cussion of such questions The questions now pending may be of a very grave character, and I hope, I sincerely hope, and not without good reason, that these discussions may terminate without any interruption to the peace-

[Hear, hear.] Whatever cause there may be for collision, it is to be hoped that the good sense on both sides of the water may prevent any unnecessary collision; but certainly discussion in this House which must be productive of a conflict of opinion-some too much upon one side and some too much upon the other-could not fail to be attended with injurious results. Now, I may be permitted, when upon my legs to refer, though I am not quite sure whether the Honorable Baronet alluded to it, to a question put yesterday, whether Mr. Crampton had retired from Washington? I stated that we had indirectly received information that such was the case. I learn from my noble friend at the head of the Foreign Department, that the information came by the Cunard steamer which left Halifax on the 22d of May. Yesterday evening there was snother packet from New York which left there on the 24th. This packet did not bring any confirmation of the report of the 22d We are therefore not in possession of any official in-

able relations between the two countries.
